EDUCATION

Web development
The goal is to become a better programmer

08/2021 - 04/2022   *Gulistan city*

Hobby
My main profession is web programming. I can create a perfect, beautiful and responsive website. I work in the direction of Frontend and Backend. It was my dad who inspired me to become a programmer, so a huge thank you to my dad. Apart from web programming, I am also interested in web design i.e. Figma and Photoshop editing. I will be the best of the best programmers in the future. And I believe in myself 100% that I will succeed

04/2022 - Present
